

America, Where Are You Going?

Chorus

America, where are you going? Are you what you once had been?
Would our fathers be dismayed at our country's sin?
America, please take the high road again!

1 - America, are you reaping what you've sown...
God hears the blood of children; their numbers untold...
Our country has shut our eyes to God's truths,
But there's hope in God, we're on our knees praying for you...

Chorus

America, where are you going? Are you where you should be?
I heard it said on Fox News, "That a judge said remove
Under God, from the pledge of our country.

2 - This great nation was built on God and His Word,
Are we falling from grace; nothing seems sure...
God's not welcome in our schools, or in our public squares,
We're in a mess; is God welcome anywhere?

Chorus

America, where are you going? Will you still be a nation under God?
Or will you be politically correct under pressure,
America, stand up; remain free and strong!
America, where are you going? Please remain a nation under God...
